# Doors of Perception

*Here is your invitation to join us at the first  
Conference of The London Forum!*

The London Forum has been hosting meetings in central London since 1995, with talks by many leading researchers in the Crop Circle phenomenon and increasingly exploring many mysteries from ancient history, more recent times and also information and theories about matters that are a cause of great interest to us all now.

We grew out of the old Centre for Crop Circle Studies, which closed in 1995. The focus then was scientific with some esoteric research. Who makes the Circles? Where are the artists from? What are they telling us? How can we decode them? There were never conclusive answers, and perhaps no new questions to ask... then.

And the phenomenon developed into ever more beautiful events in the fields. Wild theories flourished, some circles proven to be made by people, (as though that alone should strip them of any meaning). Through all the derision and scepticism the crop formations keep coming back each summer, never yet giving up all their secrets; attracting people from all round the world, theatres of opportunity for peaceful meetings, new friendships and the sharing of experience and delight.

Knowledge empowers us. There is so much more to learn from the past of every era, from the very now. Even more, if it is transmitted through a matrix of deepening spirituality and sensitivity, enriching our lives and experiences, leading us on through Doors of Perception.

### Quadrifocal Vision

Opinions and comments on the predicaments of 2009 vary widely, but the view is not encouraging. Is everything heading south? How much longer can we continue as we are? 'Change' is a word we often hear, 'Vision' is essential, to us and our communities. Let's take a deeper look at what we could do to bring about change. Richard was very active on the Council of the Centre for Crop Circle Studies. He has travelled extensively in the Ophthalmic Optical industry, in a variety of roles. Pursuing his understanding of our mutual interdependence, he became a co-founder of the Parallel Community in 2006.

He is a metallurgist and archaeologist and has written several books including 'The Secret Initiation of Jesus at Qumran'.

## Tim Wallace-Murphy
